

Our Dance Classes April/May 2018

Everyone can enjoy Jive and Swing - you won't need a special talent, to have great fun. We always foster a welcoming, supportive class atmosphere. If you have read this far then what are you waiting for?

Our classes teach social dancing skills which anyone can achieve. Dancing is huge fun and so we make sure that the fun is included from the start. We are there to patiently aid the progress of your ability and confidence.

Lead by Debra & John, we offer tuition that reflects our love of dance and our understanding of movement and connection for partner dancing. We are happy to share insights and enthusiasm from a dance experience of well over 50 years, including teaching, competition and performance. Debra is Reading's longest-established promoter of Jive and Swing.

There are no exams or tests, just coaching and encouragement in a friendly atmosphere. You will be introduced to the essentials of your chosen dance within four weeks and then you will gradually grow in confidence and competence. No previous experience or special ability needed - just come ready to have bags of fun. Bring a partner or come alone - it's up to you.

Jive

Jive is an American dance style, ideal for Rock 'n' Roll and up-tempo Rhythm & Blues. It was super-cool in the age of Elvis, it had a huge revival later in the 20th century and just keeps going strong because it's such fun. It is very accessible for those who have never danced and we offer lots of great social events where you can join our large group of supporters for record hops and live bands.

Swing

In our regular swing classes we teach The Lindy Hop which is the main event of swing dancing, born in the cultural melting pot of New York's Harlem and evolving from it's late 1920's birth to populate the planet. Embracing Charleston and Black Bottom as well as influences from Ballroom, Tap and popular 'animal dances', the Lindy Hop is a fun, free, flexible way to let yourself go to swinging music from the last 100 years.

CURRENT PROGRAM

This is constantly developing so come back to the website or join our mailing list for updates. Each items has 2 links - to the class webpage and to a Google map of the venue.
